PROFILE

Hybrid UI/UX Designer & Developer specializing in B2B SaaS dashboards, responsive web applications, and editorial platforms. Combines data-driven user research with front-end code feasibility to design and deploy intuitive, accessible, and developer-ready products from end to end.

PROFESSIONAL EXPERIENCE

Freelance, UI/UX Designer 12/2025 – Present

- **SaaS & Dashboards:** Designed an EdTech platform dashboard and a B2B ocean freight vendor/admin control panel.
- **Web Development:** Fully designed, developed, and deployed a responsive landing page for a Cold Calling system.
- **Editorial Web Design:** Designed an editorial, Medium-style articles platform for a university theater project in Slovakia.

Information Technology Institute(ITI), External Instructor 03/2026 – Present

- **Advanced UI/UX Training:** Deliver intensive workshops on complex Figma workflows and advanced design methodologies.

Hits Solution, Product Designer 07/2023 – 07/2025 | Nasr City, Egypt

- **SaaS Redesign:** Spearheaded core SaaS dashboard and website redesign, cutting user task completion time by ~40%.
- **Design System:** Built a scalable Figma design system and partnered with engineering to ship accessible, developer-ready components.

Digital Transformation Center - Ministry of Defence., UI/UX Designer 11/2022 – 07/2023 | Nasr City, Egypt

- **State Mobile App:** Designed a secure mobile app for state project management, converting complex logic into intuitive user flows.
- **Fidelity Handoff:** Delivered pixel-accurate specs and prototypes for the Flutter team, ensuring 100% design-to-code fidelity.

SPECIALIZED TRAINING & INTENSIVE BOOTCAMPS

UI/UX Development - Intensive Code Camp (ICC) from Information Technology Institute (ITI) 07/2025 – 12/2025

Leveraged front-end technologies (HTML, CSS, JS, Vue.js) to bridge design and engineering, ensuring technical feasibility and seamless handoffs.

UX/UI Design - Intensive Code Camp (ICC) from Information Technology Institute (ITI) 07/2022 – 11/2022

Mastered Design Thinking, user research, IA, wireframing, and high-fidelity prototyping across the full product lifecycle.

SKILLS

UX & Product Design: User Research, Information Architecture (IA), Wireframing, User Flows, Journey Maps, Personas, Usability Testing.

Visual & Interaction: Design Systems, Interactive Prototyping, Data Visualization, Responsive Design.

Tools: Figma (Advanced Auto-layout & Components), FigJam, Adobe XD, Miro, and VS Code.

Front-End Basics: HTML5, CSS3, JavaScript, Vue.js, VS Code, Git

EDUCATION

Faculty of Commerce, Tanta University, Bachelor's Degree in Accounting 09/2016 – 09/2020

Grade: Good
